About Me

Hello there! I'm Sourav Pandey, a second-year B.Tech student majoring in Artificial Intelligence & Machine Learning at Galgotias College of Engineering & Technology. With a solid foundation in C and C++, I've been exploring the exciting realms of web development alongside my academic journey.

Quick Overview:

Web Development Enthusiast

Currently diving into the world of web development, I'm cultivating skills in both front-end and back-end technologies. My goal is to craft seamless and visually appealing digital experiences.

Tech Stack

Proficient in C, C++, and gaining proficiency in web development tools, including HTML, CSS, and JavaScript. Actively learning and exploring frameworks like React for enhanced UI development.

Academic Excellence:

Achieved an impressive 87% in my 12th grade, showcasing a dedication to academic pursuits and a strong foundation for further studies.

What Drives Me:

I thrive on problem-solving and analytical challenges. My passion for technology and the endless possibilities it holds motivates me to contribute meaningfully to the ever-evolving landscape of AI, ML, and web development.

Tech Exploration:

Currently engaged in hands-on learning of WordPress development, delving into plugins, themes, and frameworks. Combining strong problem-solving skills with a knack for creativity, I'm excited about the opportunities that lie ahead.

Achievements:

- Actively pursuing certifications in web development to enhance my practical skills.
- [Any other achievements or projects you'd like to highlight.]

Language Proficiency:

I am fluent in English, Hindi, and Bhojpuri, with the ability to understand Assamese, Bangla, and Maithli.

📫 Let's Connect:

Eager to gain real-world experience in WordPress development, I'm actively seeking an internship opportunity. Connect with me on Linkedin to explore collaborations or discuss exciting prospects. Thanks for taking a glimpse into my journey, and I look forward to connecting with you!

Projects

PushUp's Gym Frontend

This is a simple gym frontend designed using HTML and CSS, providing a user-friendly interface for potential gym members to join.

Project 2

Explore mental health awareness and information hub offering insightful articles on conditions, risk factors, and treatment. Connect with us through our contact page to share experiences and seek support.

Infinitext

InfiniTexts: Your gateway to a vast, limitless collection of digital books. Dive into an endless ocean of knowledge with ease and convenience.
